

Personal. Close. Competent.

Expertise from decades of experience

Since our establishment in 1984, we have grown continuously with and through our customers' requirements: Step by step, we have expanded our range from particle boards, to fibre and MDF boards, right up to our current complete portfolio. As one of the largest dealers and importers of wood-based materials in Europe, we can now offer wood-based materials or packaging solutions in almost any form and variation.

Personal, close and competent

Personal for a relationship between equal partners, **close** for rapid decisions and deliveries, **competent** for reliable quality – that is the vision of our 45 employees. Under the management consisting of our two Managing Directors Mr. Meise and Mr. Tölle and our authorised signatory Ms. Stamm, they are also exerted to fulfil our customers' requirements every day. As a training enterprise for industrial clerks, wholesale and foreign trade clerks, we pass on this expertise to the next generation.

Multifunctional warehouse for short-term delivery times

In our multifunctional warehouse with about 6000m² in Steinheim/Westphalia, we do not only stock a wide range of boards and materials in different designs and qualities, we are also able to cut boards up to 5600 x 5600 mm. A comprehensive logistics network, developed over decades, with partners throughout Germany and Europe ensures the deliveries just in time and as required.

There for you, no matter what size the order is

From large-scale industrial companies, full-range providers or industrial customers, from the furniture industries, automotive, wood trade or building markets, we can fulfil your needs and requirements. Tailored service, from individual pallets up to complete truck loads.
